◆ Description

VMS-75-XX IP67 L EXC series is a 75W, constant voltage IP67 LED driver that operates from 198-264Vac input with 12/24/36/42/48V output voltage, excellent power factor and THD feature. With its dimensions from 143.4x47x31.8mm. This series of products is specially designed for direct power supply applications such as LED strips. The high efficiency of these drivers and compact metal case enable them to run cooler, significantly improving reliability and extending product life. To ensure trouble-free operation, protection is provided against input surge, output over voltage, short circuit, and over temperature.

Note	<p>1.All parameters NOT specially mentioned are measured at 230Vac input and 25°C of ambient temperature.</p> <p>2.Ripple & Noise are measured at 20MHz of bandwidth by using a 300mm twisted pair-wire terminated with a 0.1uF & 47 μF parallel capacitor.</p> <p>3.This LED driver meets the EMI specifications above, but EMI performance of a lighting fixture also depends on the other devices on the fixture.</p> <p>4.The over-temperature protection of the product is provided by the IC.</p> <p>5.The start-up time is measured under cold start-up, frequent switching on and off may extend the start-up time to different degrees.</p> <p>6.The LED driver complies with the IP67 (and lower) protection rating standards, but is only suitable for indoor damp environments or outdoor sheltered locations (e.g., with rain protection). All products must not be used underwater or buried in the ground.</p> <p>7.All Eaglerise power supply are complied with EMI regulations. Since they are belong to component and will be installed inside system enclosure. When they are integrated into a system, the EMI characteristics of the system must be re-verified again.</p>
